

## Family Functionality Assessment

Quickly rate your family of origin’s functionality based on these 8 factors. Don’t overthink it; just go with a quick gut assessment. Score 1–5, with 1 and 2 representing the degree of alignment with functional behaviors in the left column; 4 and 5 representing the degree of non-functional behaviors in the right column; and 3 representing an equal distribution.

<p><b>Integrate the past well:</b></p> <ul style="list-style-type: none"> <li>• Talk about positive and negative experiences</li> <li>• Learn from past experiences</li> <li>• Reminisce positive experiences</li> </ul>	<p><b>Integrate the past poorly:</b></p> <ul style="list-style-type: none"> <li>• Dwell on negative experiences</li> <li>• Repetitive</li> <li>• Trying to fix past experiences</li> </ul>
